4710 S. College
Fort Collins, Colorado

Testimony:

“Bravo! Our new Centerra office building is fabulous! You and your team at Coe have created a masterpiece. We get daily “oo’s and “ah’s” about the quality of your workmanship. We continue to get unsolicited visitors....they said they “just had to come in to look at this building” and “this is the best designed and built small office building we have ever seen” – coming from an Architect and Developer from Chicago. Please give our thanks to all of the great people at Coe. You have made us very happy and helped create a landmark that we can all be very proud of.”
